Hello, again...I didn't add your name to the Wilcox list as you are on the Universal All list, which means you would get two. If you still want it added, just let me know. Thanks.

Lorraine.

This is what I added to the mailing list before the fact sheet went out. They were included in the labels but not on the other list.

Subject: Wilcox Oil Mailing List

Hi, Bill...I hope you are doing well.

CH2M HILL maintains EPA's official Superfund Mailing List database for the agency. Even when we

9564926

don't have authorization to work on a site (Wilcox Oil, for example), we are allowed to do basic maintenance (returns, etc.) during the course of our regular work maintaining the list for other sites. I just received returns for a Wilcox Oil mailing. There is no mailing list for this site on the official Superfund mailing list database. So, we cannot remove these folks from the list. Let me know what you want to do. I would suggest getting the database in Excel format and sending it to us, so it will be included in the official database. If it's in Word and needs to be manipulated, retyped, etc., we would not be able to do that, as it would take some time and we are not authorized to charge time to this site. Your contractor should be able to provide the site list as an excel file. As an excel file, we can quickly include it in the database and then take care of these returns when we do work on other sites. Then you can request the list and it will be current. We send the updated database to Donn Walters monthly, so you can get a good list from us (HILL) or go to Donn. Make sense? Holler if I didn't make sense. It's been known to happen ☺
